

Send your Medicare GLP-1 Bridge patients to Forus

Send your bridge prescriptions to Forus and we handle the rest — the bridge-specific prior authorization, the pharmacy claim, and status updates back to your team and directly to your patients.

\$50 Per month
Any income

How to get started

Step 1

Check eligibility

- ✓ Enrolled in an eligible Medicare Part D plan
- ✓ Prescribed a covered GLP-1 for **weight management**
- ✓ **Not** currently receiving a GLP-1 covered by Medicare Part D
- ✓ Meets the program requirements →

Step 2

Send the eRx to Forus

Forus Access Support
1020 W. Main Street, Boise,
Idaho 83702
NCPDP: 1310844

Include the **E66 obesity ICD-10** code directly on the prescription — not only in the chart notes.

Step 3

Fill in the note to pharmacy

Send to bridge for weight management

Also include the member's **Medicare Part A/B ID** — it speeds up processing at the pharmacy.

GLP-1 Medicare Bridge Program requirements

CMS criteria as of July 1, 2026

Indication

Must be prescribed for **weight management** with an **obesity diagnosis, E66 ICD-10 code**. Any other indication does not qualify.

Covered medications

- ✓ Foundayo — all formulations
- ✓ Wegovy — injection or tablet
- ✓ Zepbound — KwikPen
- ✗ Zepbound single-dose pens and vials (not covered)

Program exclusions

- ✗ The patient has been approved for a GLP-1 through their Part D plan
- ✗ The drug is prescribed for a Part D-covered indication:
type 2 diabetes **MASH**
moderate-to-severe OSA
Send those coverage requests to the patient's Part D plan instead.

Clinical criteria

BMI Range*

At least one of these conditions

≥35

- No additional condition required.

≥30–34.9

- Heart failure with preserved ejection fraction
- Uncontrolled hypertension despite two antihypertensive medications
- Chronic kidney disease stage 3a or above

≥27–29.9

- Prediabetes
- Previous heart attack
- Previous stroke
- Symptomatic peripheral artery disease

*Measured at the start of GLP-1 therapy.

Questions? Call or email the Forus team anytime.

Send prescriptions to **Forus Access Support** in your EHR with the details above — we take it from there and keep your practice and patients updated at every step.
